Fill occurs when small lines within the artwork bleed together to produce a thicker line. Additionally, small type within this artwork may not be legible. Burlap & Jute Material - Printing on For item made from JUTE or BURLAP material - ONLY Bold artwork; no fine text or graphics; minimum 32 pt. font size) will work. The ink has to go over the item twice because of how much the material soaks up the ink so fine lines, small text will not print legibly. SIDE NOTE**Jute bags are made from a plant fiber, which exudes a natural fragrance. As with most fragrances, it will dissipate within a day or two. B - Lost Detail Approval The small details in your artwork, such as the spaces between lines and shapes that are thinner than 2 pt thickness, small marks like © and ™, or lines that are thinner than 1 pt thickness, may be lost or fill in during the printing process. By approving this advisory, you are waiving your right to a reprint or a refund due to issues stemming from this caution. C - Reducing art to fit inside imprint area When we reduced your design to fit within the Imprint Area, it becomes too small to be legible and it will NOT print well. We made a Suggested Option fixing the areas of concern so it will print better. A - Lost Detail and Small Text Test
