Full color imprint will require adding a background shape behind the entire image in order to apply the logo to the product as one solid piece. The background shape can be trimmed approximately 1/8" around the outer edges of the logo or can be a solid block. We can make this background any color you would like with the exception of black as it is not a true black and appears as a washed out grey. Please keep in mind this is a four color process and exact pms match is not available.
