Imprint is silk-screened.
 Allows 2 side imprint.
 4 spot color imprint max.
 Cannot guarantee exact registration.
 Halftones print at 60 LPI.

TIPS FOR ACHIEVING THE BEST IMPRINT

- Vector artwork always produces the best result.
- Typeset should not exceed 5 lines.
- Grayscale images with a range of gradients will lose detail, this includes photographs.
- Text should not imprint below 10 pt font size.
- Multi-color artwork must have at least 1/4" separation between each color to accommodate the shifting of each color. For multi-color art where registration is critical, a pre-production proof (charges may incur) may be recommended or a waiver signed.
- Thin lines and fine details may fill in or break apart.
- Utilize as much of the imprint area as possible for maximum impact.
