

# Template Sport Sleeves

## PRE-PRESS INFORMATION

1. To avoid additional charges, please provide vector artwork and convert all text to outlines. If you are using a full color bitmap, provide any vector portions separately and we will combine them.
2. Text less than 10 points high may not be readable. Adjust the line thickness on small detail to a minimum of 1 point (lines less than 1 point in thickness may not reproduce).
3. Use only spot colors. Do not include RGB or CMYK colors in your artwork unless you are using the full color option. Specify ink Pantone colors for "close match" (no additional charge).
4. Half-tones are applicable only for the full color option.
