Please note that these thermo bags feature a dimpled surface (a pattern of small depressions). ColorVista imprints adhere to the flat portion of the bag's surface, rather than down into the dimples. We provide high-quality imprints that are generally very secure on the bag. Please be aware though that if the ColorVista imprint's edge rests on dimples, it is possible for a user to loosen the transfer if they make repeated attempts to peel the imprint edge from the bag. On full color / color vista imprints a slight item color border will be added to the design to help adhere the design to the item.
